

## **ABOUT US**

Our company, which aims to produce innovative solutions suitable for developing technology as a requirement of modern life, was established in 2011 with a young and dynamic structure under the leadership of an experienced executive team.

Our company, which is aware of the responsibility of producing permanent values such as building construction, has adopted quality and aesthetics as a principle since the day it was founded with its growing staff.

The main purpose of the company is:

All kinds of construction contracting works; To construct and sell houses, workplaces, businesses, to buy land and plots on their own account, to build buildings in return for floors on these or on plots belonging to others.
