

ABOUT US

Mustafa **SÖNMEZ**
Chairman & Founder

I was born on March 9, 1978 in Mahmutlar district of Alanya city, Antalya region. I was lucky to be at the beginning stage of the massive construction of our region. The region that you see now was created in my eyes and with my participation. And I am proud of the work done.

From the first day of work in the real estate market, my principle has been and remains the principle of “Satisfied customer”. For me, the concept of “sell and forget” was and remains unacceptable. We always do our best to make the customer feel our care both before and after buying a property. Until 2012, our main activity was real estate services, but since that time we have gained strength and experience in order to realize ourselves in the construction sector. By combining the two Latin words **Novam (new)** and **Vitam (life)**, we got the name of our first large construction project – **NOVITA**. Later this name became a brand. All our complexes are fully focused on the convenience of people, harmony with nature and are built using new technologies.

It is important that in all **Novita Residence** projects we tried to provide our customers with favorable cooperation conditions that made participation in the construction of our complexes a profitable investment. In this message, I want to thank our customers who, trusting us, have made and are making investments in our projects; our agents and partners who implement our projects together with us; the mayor of the city and the employees of the municipality who support us; my team who has never let me down, and my family who has always been with me. We continue our work and are optimistic about the future. We will make every effort to meet your trust. To continue to be proud of what we do.

“Sonmez Real Estate & Construction” – is the largest licensed real estate agency and construction company in Alanya city on the Mediterranean coast of Turkey since 2001. Today our company has the most extensive and up-to-date database of real estate objects in Alanya. We are also engaged in investing, offering quality and reliable services in construction, which corresponds to world, standards. Our task is to provide people with a safe and secure life.

The main value for our company is our customers and investors, therefore we are attentive to the needs of our customers, and we are constantly expanding the list of services we provide. Each of our customers is dear to us, so we make every effort to satisfy all your needs and wishes, offering a wide range of real estate in Turkey and an individual approach to each customer.

We rely only on long-term relationships and will make sure that your investment is as profitable, comfortable and safe as possible. The employees of our company will be happy to help you with any questions. Sonmez Real Estate & Construction is a profitable investment in your future.

Sincerely, Mustafa Sönmez
