

ABOUT

OXO CONSTRUCTION

OXO Construction was founded on the combined strengths gained through many years of experience in their respective sectors of Makro Architecture, Fokus Construction and we are also partner of Orta Dogu Holding.

The firm's principles of providing luxury and comfort at competitive prices, comprehensive service and full customer satisfaction means that Oxo Construction has built an excellent reputation in the housing and construction market through its successful past and ongoing projects. Our projects are carried out by our own architects, engineers, designers and technical crews. It is to our advantage that two of our managing partners are experienced architects who have spent many years designing and implementing projects.

OUR STORY

OxO Construction has visible trade strategies and single price policy. We have always new projects for you to buy amazing homes. We have always off-plan projects and different offers for you. Firstly, we are listening your requirements carefully and then we organize some offers. Reasonable prices and installments are always in our offers. Please keep in touch with us and buy your second home
