

## Construction Philosophy of Özçiçek İnşaat

Adopting the philosophy of continuous development and modernism, Özçiçek İnşaat has developed qualified, modern and user-friendly housing projects since its establishment and has completed and delivered over 1000 residences.

Özçiçek İnşaat projects are designed with an understanding that is careful to the natural, social and physical conditions. With its service approach based on total quality management, Özçiçek İnşaat aims to provide high consumer satisfaction starting from the project development stage to after-sales services.

Özçiçek İnşaat has started a new journey with Viamar projects, consisting of 6 similar concepts designed with elaborate architectural details and rich social facilities.

### OUR MISSION

## Constructing buildings that respect human and nature.

We are aware that the human factor is the most indispensable element in the success of a project. That's why we've adopted the principle of adding value to the quality of human life, both our employees and our end users. Integrating the most recent technological developments and innovations in the construction sector into our production process is the key fact of our total quality management approach. Our essential aim is to deliver the most efficient and qualified products without harming nature and human life.

## OUR VISION

### Getting ready to take our place in the globalizing world.

Özçiçek İnşaat is preparing to take its place in the globalizing world by following the international standards! With its international investment plan, Özçiçek İnşaat aims to sign larger projects in the future which can continuously produce estates that add value to the physical and social environment.
