

Yenisey Construction Company has been operating in the real estate market in the southern region of Turkey since 2006.

Over the years, we have established ourselves as a quality developer, using only environmentally friendly building materials and innovative technologies in construction.

Our customers trust us and we try to exceed their expectations and make their lives as comfortable as possible in our complexes.

Why Yenisey?

The implementation of large-scale construction projects requires a clear organization of the work process, a close-knit team of real professionals in their field, the availability of their own investment resources and good production capacities.

Thanks to the invaluable practical experience and tremendous efforts of all business participants, we have an impressive portfolio of completed projects that fully demonstrate our competence. Our complexes are in great demand among buyers from all over the world, therefore Yenisey rightfully occupies a leading position among construction companies in Alanya. We have earned our reputation through hard work, meticulous precision, continuous learning and the use of new technologies in construction.

Years of professional activity have shown in practice what the success of our construction business is: first of all, you need to love what you do!

Yenisei is more than a home!
