

Our FENERCİOĞLU Group Company was established in Alanya with the claim of being a pioneer in its sector, by business people who devoted themselves to the development of the city and their country in service. In each of its activities, it has made significant contributions to the social benefit and economy, both at the macro level and in terms of creating regional employment.

The founders of our group companies have technical and legal knowledge and experience in the real estate sector, tourism, trade, investment and consultancy fields, which are the result of many years of actual work. It serves by combining the experiences of the founders with the energies of its young and expert staff, consisting of engineers, architects, consultancy, law, economy and business professional groups, and increases the product benefit quality by constantly improving the privileged services it offers to its customers with the investment instruments it has constantly diversified for 16 years.

FENERCİOĞLU Group, which offers a wide product portfolio in order to meet all the needs and expectations of our investors; brokerage services are not limited to services such as investment advice, research and portfolio management.
