## About us

Nordic Property Construction is an international construction company with European investments. Since 2015, we are building residential complexes in an effort to implement a new concept of high-performance housing on the Mediterranean coast.

Our team is a fusion of energy and experience, accumulated knowledge and openness to new things, dedication, care for each of our customers and faith in doing our work with love, we create the best.

# Our principles

## Attention to detail

We took care of everything: from the height of the ceilings and the insulation of the apartments to the shape and decoration of the swimming pools. It is the details that form the level of comfort of living.

## Choosing the best locations

We carefully select convenient locations for our residential projects: everything you need is within 2-10 minutes walking distance

## Honesty and openness

We strive to become one of the best on the market and work to exceed the expectations of customers, we are open and sincere with each of our clients, thanks to which we managed to acquire an impeccable reputation

**NORDIC PROPERTY**  
CONSTRUCTION

## Quality

During construction, we choose innovative materials of the highest quality, ensuring the comfort of living and aesthetic perfection of the finish

## Individual approach

During construction, we take into account the requests of each buyer, upon request we provide individual non-trivial solutions for planning and finishing your real estate
