

START DATE: 15.11.2022

COMPLETION DATE: 30.11.2024

KAVİ SKYLAND is a project located in the Demirtaş region of Alanya. Demirtaş is one of the quiet and peaceful areas. Kavi Skyland project will be built in coniferous forests and clean nature. It is a very good investment to start the day against the sea, which is only 1200 m away.

KAVİ SKYLAND will be located on an area of 4.227 square meters and will consist of 1 block, 7 floors and a total of 72 flats. There are apartment options that offer living space from 49 square meters to 138 square meters.

We have a variety of apartment options available:

- 1+1 flats
- 2+1 flats
- 2+1 and 3+1 garden and penthouse duplex flats

All apartments are presented with high quality finishing, plumbing materials and kitchen furniture.

The area will be decorated with decorative garden and green areas.

Do not miss the investment opportunity for a peaceful and comfortable life with the KAVİ SKYLAND project.
