

ABOUT ALLURE

A long and pleasant journey of life awaits you.

It is now very easy to add value to life, to get away from the crowd, to experience comfort. We implement this convenience with Allure, as in our previous projects, without tiring you.

For those who want to get away from the busy pace of work and the chaos of the metropolis, Allure houses in Altıntaş, the new center of Antalya, invite you to a more peaceful environment with the outdoor swimming pool in the green area and the sitting, walking and sports areas created around the pool.

Sport, which has become indispensable in our lives, is more enjoyable at Allure. In the indoor gym within the scope of the project, we planned to increase the fitness center facilities to the highest possible level, as well as advanced cardio equipment.
